

Press Release

Dr. Heiko Maas joins Sapherior as new partner

Hamburg / Bad Dürkheim 01.02.2022

Dr. Heiko Maas, a proven expert in operations and long-time BASF manager, has become new partner of the top management consultancy Sapherior as of February 1, 2022. "Dr. Heiko Maas complements our consulting expertise for the chemical industry with his extensive practical knowledge of production and process engineering", says Manfred Vehreschild, Chairman of the Supervisory Board of Sapherior GmbH, welcoming the new partner.

Heiko Maas is married and the father of a son. Maas, who holds a doctorate in chemistry, has held various international strategic and operational positions at BASF. Both his responsibilities as Director Regional Strategy Asia-Pacific and his experience in the technical field, from Operations Manager to Vice President Operations EU, are a perfect fit for Sapherior's service portfolio.

Dr. Walter Schweeberg, the founder and spokesman for the management of Sapherior GmbH, holds his new business partner in high esteem for many years: "I am delighted to welcome Heiko to Sapherior today. He is a proven production expert and will head the Operations division. Especially the combination of strategy with operations in combination with our very large experience supports our customers with outstanding competence in improving top line AND bottom line at the same time."

About Sapherior

Sapherior GmbH is a top management strategy consultancy specializing in the chemical, polymer and life science industries. By combining operational experience, consulting practice and profound market knowledge, strategies and concepts are developed in close cooperation with the client. The solution approaches developed from the internal view of the company ensure the implementation of the project results also in the follow-up. More at: www.sapherior.com
